ABOUT PROF NR KAMATH

Born on September 8, 1914, Narayan Rangappa Kamath hailed from Mulki, a small town on the banks of the river Shambhavi near Mangalore in South Kanara district of Karnataka State. He was the youngest of seven children, five boys and two girls. NRK completed his early education in Mulki and his SSLC from Government College, Mangalore in 1930 with high credits. He could not gain admission to the much coveted Presidency College, Madras since admission at that time was also dependent on religious consideration and young Narayan despite his excellent results, belonged to the wrong constituency. He moved to St Xavier's College, Bombay where he completed the B.Sc. course in 1934 with a unique distinction of securing 100% marks in Chemistry, a record unequalled in Bombay University for the next 40 years.
