

PLACEMENT REPORT

MBA TECH 2019 - 20

Overview

NMIMS has always thrived to define the new era as an amalgamation of Technology and Management. MBA Tech programme at MPSTME has understood the current dynamics of business of the 21st century and linked it successfully to develop and help students link the technology know-how to management concepts which has benefitted them to perform efficiently and effectively. This course has not only linked technology and management but is preparing students to head for the future through **Innovation, Creativity** and encouraging **Entrepreneurship**.

The MBA Tech is an integration of technology and management with the higher proportions of technological inputs in the initial stages and moving towards 'Technology Management' in the later stages of the course. SVKM's NMIMS has a reputation of producing the brightest students. In line with this legacy, the faculty members of MPSTME programme are characterized by high levels of learnedness and orientation towards research. They work hard to extract excellence from the students.

Message from Dean

At the Mukesh Patel School of Technology Management & Engineering (MPSTME), we strongly believe in nurturing the potential of every student through a robust & choice-based quality education system. The pedagogy adopted is innovative, the curriculum relevant and the learning experiential. A strong connect with the industry, state of the art infrastructure, strong research culture, internships and project-based learning ensure that our graduates are industry ready professionals. The presence of experts from the industry and academia on our academic bodies and their active participation in all strategic and decision-making processes further strengthen the high academic standards set by the SVKM and the NMIMS University.

Over the years our MBA Tech programme has passed the test of time and proved its relevance to the industry. The sound technical base in the initial years and the strong managerial grooming in the later years give the best of both worlds to the graduates. The success of our alumni placed in top notch companies' world over bear testimony to the fact.

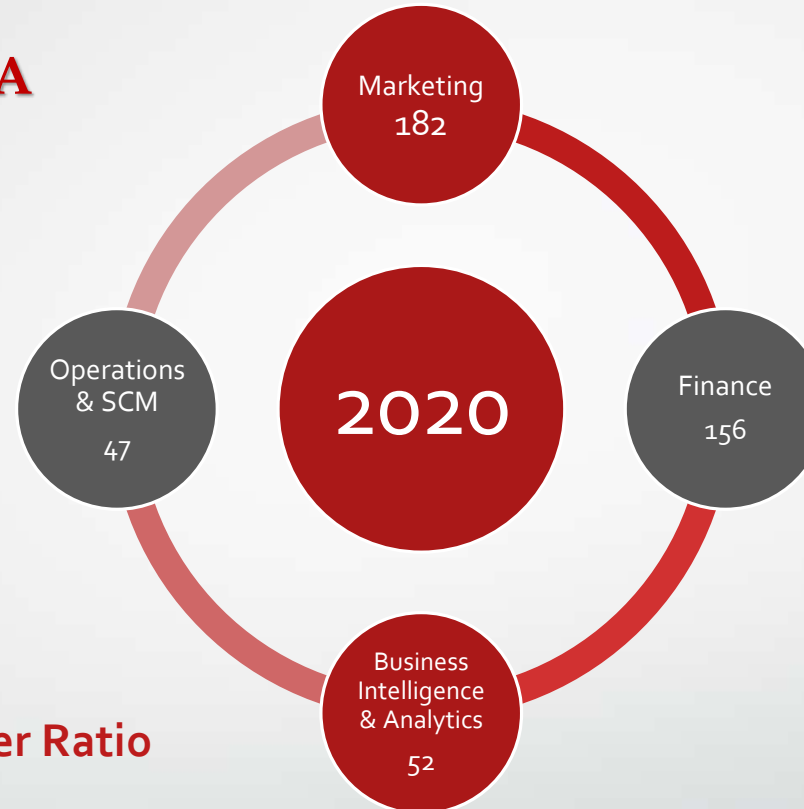

This brochure is an attempt to acquaint you with our systems and processes, giving you a flavour of what the MBA Tech programme and MPSTME is all about. It is a pleasure to invite you to participate in the campus placement process this year. For us it goes beyond that and is more of a relationship building exercise that is mutually rewarding. We look forward to interacting with you and taking the relationship one step forward.

Dr. Alka Mahajan
