

**MUKESH PATEL SCHOOL OF  
TECHNOLOGY MANAGEMENT  
& ENGINEERING**

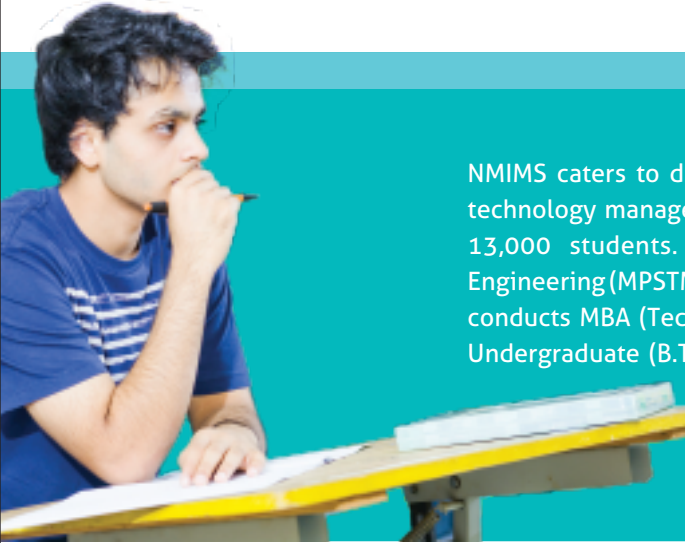

[www.nmims.edu](http://www.nmims.edu)

**B.Tech.**

(6 Years Integrated Diploma & Degree Program)

Shri Vile Parle Kelvani Mandal (SVKM) is a charitable trust formed in 1938 to spread education amongst various sections of the society, especially women. The trust has made rapid progress since its formation. At present it caters to 40000 students in different sectors of education. The trust formed NMIMS deemed-to-be university in 2003 under section 3 of the UGC act 1956.

NMIMS caters to different sectors of education like management, engineering, technology management, science, law, finance etc. At present NMIMS caters to 13,000 students. Mukesh Patel School of Technology Management and Engineering (MPSTME) a constituent of NMIMS was formed in 2006. The school also conducts MBA (Tech.) program which is 5 year integrated dual degree program, Undergraduate (B.Tech.), Post graduate (M.Tech., MCA) and Ph.D. programs. The school caters to 3900 students. Similar courses are also offered at NMIMS Shirpur campus which hosts 1550 students.

All programs at NMIMS are well knit, relevant and co-designed with industry partners. Accompanied by these initiatives, the school offers innovative pedagogical delivery like on line as well as experiential learning, summer courses etc. at reputed universities abroad. The laboratories at MPSTME are state-of-the-art. Numbers of laboratories and centres like NMIMS-BOSCH-Rexroth centre of excellence in Industrial Automation, Accenture Centre of Innovation, Blackberry Innovation laboratory, EMC<sup>2</sup> laboratory for information storage management etc. have been set with active industry collaboration. As a result the programs are well received by the industry resulting in near 100% placement.

MPSTME has initiated a unique six years B.Tech integrated program for 10+ students from the academic year 2014-15 with industry and academic inputs. It has been found from inputs that 80-90 % students after their diploma, opt for degree programs to enhance their career prospects. When they do take admission for degree programs, there is a lot of overlap in the technical content while the lateral entry students lack in mathematics foundation. This program will bridge the shortcomings and prepare the students for a career in the industry.

## Eligibility

Candidate must have passed SSC (Std X) examination or its equivalent with subject Mathematics, General Science and English with 70% aggregate marks.

For more details of Eligibility Criteria, please refer website [www.nmims.edu](http://www.nmims.edu)

### The salient features of the program are:

- Six years Integrated Diploma & Degree Program leading to B.Tech.
- Well-knit curriculum in Civil, Computer, Electronics and Telecommunications and Mechanical Engineering with opportunity to pursue B.Tech in Mechatronics for meritorious students.
- Curricula co-designed with active industry and professional bodies participation.
- Different modes of delivery like on line learning, experiential learning, summer courses etc.
- State-of-the-Art laboratories and classroom facilities.
- Highly qualified and Competent faculty involved in teaching as well as research.
- One year industry internship enabling students to relate theory to practice.
- Imparting and inculcating soft as well as life skills.

MPSTME seeks meritorious 10+ students for admission to this program. The school will hold sessions in the 2nd & 4th week of April and May for giving additional information on this program.
