**Discussions & deliberations-**

The board members gave the following suggestions-

- i. Board members were informed about the new Teaching and Examination scheme which is made to avoid scaling up or scaling down the marks and no change in the evaluation pattern for the students has been made
- ii. It was advised by one of the board members that there the courses offered in the same specialization should be of value add and students should be guided to select electives accordingly.
- iii. Holistic delivery of the courses to be kept in mind to enhance the learning experience for the students should be offered through several courses
- iv. It was suggested that the MBA Tech programme could include courses such as Business Ethics and Governance and Business Sustainability

**Action taken:**

- i. Overlap of topics in multiple subjects offered has been removed
- ii. Introduction of new courses on Business Ethics and Governance and Business Sustainability will be reviewed by the department for feasibility and can be discussed in future BOS meetings.

**Additional Suggestions for consideration in Future:**

- i. Disruptive technologies to be considered as a part of the delivery of the course Management of Technology and Innovation. Projects could be designed in a way that students are also made to do a lot of ground work for any kind of Disruptive innovation / Business.

Chairperson  
Dean, Board of Studies
